#### V1. DEMOGRAPHIC DATA

How will the project influence tourism in Oconee County?

Research shows that Chambers of Commerce are a trusted source of information and one of the first resources people turn to when considering visiting an area. While there are other websites promoting Oconee County, it is important to provide the tourism information at the site the viewer selects, especially one that has a national reputation for trustworthy information and provides business hour coverage for follow-up telephone questions.

A. How many visitors/participants attended the event last year and are anticipated this year?

In the last 12 months, 20,000 viewers have visited the Oconee County Chamber Web Site.

B. How many of the visitors/participants were from beyond a 50 mile radius of Oconee County last year and are anticipated this year?

Data shows that 20% of viewers come from Oconee County (including Clemson). 80% come from:

Rest of South Carolina:	32%
North Carolina:	9%
Georgia:	9%
Florida:	5%
Tennessee:	3%
California:	2%
Other:	20%

C. How many overnight stays were created by this event last year and are anticipated this year?

Last year: No specific data
This Year: No specific data

D. How do you plan to advertise this event beyond a 50 mile radius of Oconee County?

The Chamber website is available, online 24/7 and has a strong search engine ranking meaning the website comes up near the top when visitors Google Oconee South Carolina. Please see Attachment A for screen shots of Google search results showing the Chamber's Web site as the first or second result in response to likely search terms.

E. What other documentation can you provide demonstrating this event promotes Tourism in Oconee County? (i.e. photographs, letters from local chambers of commerce, restaurants, shop or accommodations owners)

The website serves as a source of information on restaurants, hotels, bed & breakfasts, shopping and things to do in our area. Other than tracking where visitors to the site come from, there is no way to document how they use the information on the site. Any exposure to Oconee County is positive and helps viewers better understand all Oconee County has to offer – and that results is more visitors to our area.

F. What records will be kept during this event to obtain the above demographic data?

(i.e. guest logs, phone logs, accommodations contracts, website hits, advertising demographics)

The Oconee County Chamber maintains statistics of viewership and has shown a steady growth over the past four years.

#### III. NARRATIVE PROJECT DESCRIPTION

A. Project Title

Full Moon Artists December Studio Tour

B. Description of project

Each of the four Full Moon Studios will open their doors to the public Saturday and Sunday December 7<sup>th</sup> and 8<sup>th</sup>, 2013. For the purpose of education, awareness and appreciation of the professional local art that is made right here in Oconee County. The studios are owned and operated by Warren Carpenter, Chris Tory, Robin Anne Cooper, Stan DuBose, Mike and Cindy Hart. The studios are located in Seneca, West Union and Walhalla. To fulfill the mission of the Full Moon Artists each of the studios will have a guest artist bringing their art form to exhibit, demonstrate and discuss it with the guests.

Guests will be engaged through demonstrations of woodturning, clay forming, painting, weaving and much more. Guests will be exposed to the wide variety of

materials and methods used to create art. Guest will experience differences in the working studios; from a jewel box were everything is perfectly laid out, to the purpose driven clay barn, the woodworkers dream workshop and a studio which incorporates lots of unusual and different ideas. The primary purpose of this is event is to increase the visitor's appreciation of art.

Full Moon Artists was established to build on the synergies of professional artists working together. They felt the need to open the studios on a bi-annual basis. The majority of these artists are well represented by galleries outside of the upstate area. The studio tour exposes guests to the process of art being made and the artists in their environment. Together they can draw more guests during an opening than any one studio could attract on their own. Create bigger impact in giving to non-profits and helping to highlight other local artists.

To date Full Moon Artists have held four studio tours, hosted over twelve different guest artists, participated in four group shows, created a special tree for Hospice's Christmas Tree Festival, created the prizes for the 1<sup>st</sup> DAR Golf Tournament, and given to various silent auctions. Results astounded the artists, more than 400 guests from 17 states have visited during previous tours. With additional funding they feel the ripple effect could be appreciated by other businesses in Oconee County.

C. Who will benefit from this project?
All of the guests, the artists and local businesses that receive business as a result of the studio tour

#### V1. DEMOGRAPHIC DATA

How will the project influence tourism in Oconee County?

During the last four Full Moon Studio Tours we have recorded more than four hundred guests, coming from more than seventeen different states\*. While we cannot claim they were all here for the tour, we can claim we were a great part of their visit to the area and they left with a deeper appreciation of art and the local talent.

Because this is a self-guided tour the guests drive their own cars from studio to studio, they get to view some of the other wonderful attractions that we have to offer. Stop and eat between studios and shop.

- \*See copies of End of the Road Studios guest book attached to this application for verification.

We maintain a guest book and will provided website data, along with any appropriate advertising demographics. Additionally we will give each guest a sticker hoping they will wear it all day. This allows merchants to see that guests have been on the tour and are or spending money with them in part because of Full Moon Artists. Because this is a self-guided tour the guests drive their own cars from studio to studio. This travel exposes gue to attractions that our county has to offer. In between studios visits guests eat, shop and up with gas at local merchants.

- B. How many overnight stays were created by this event last year and are anticipated this year? LY 134 TY 169
- C. How do you plan to advertise this event beyond the 50 mile radius of Oconee County. Print ads, brochure and radio in Western NC & Greenville, SC. See budget sheet for specifics on media buys.
- D. What other documentation can you provide demonstrating this event promotes Tourism in Oconee County? The WCA is a destination venue that has the capability of drawing patrons within a 100 mile radius of Walhalla. Last season we produced 30 shows that generated approximately \$122,252.00 in ticket revenue. For venues such as ours the historical multiple factor is for every dollar our patrons spend with us they spend three times that amount at our local restaurants, shops,

hotels and convenience stores. Using that number our economic impact for Oconee County was \$366,756.00 last season.

Using the same formula for our upcoming season we are planning 67 shows that will generate \$148,000.00 in revenues for us and in turn will generate an additional \$444,000.00 for our local economy. Tourism's economic impact will account for 38% or \$168,720.00 of that total.

E. What records will be kept during this event to obtain the above demographic data? For our type of venue attendance/ticket sales is the measure we use to track our success. We keep detailed records of our attendance for each show we produce. This includes general admission sales, season ticket sales and comps. We budget for each show based on our expected costs and anticipated receipts. We use a greeter at all our shows who is responsible for obtaining the zip codes of all attendees as they enter our facility. This provides us with a tracking mechanism to determine where our patrons are coming from. It will also position us to track the success of this seasons marketing campaign in increasing our out of county attendees.
