ſ			Telephone	Road	The Road Improv	March 50, 2011 this November 27, 2	
	Date	Name	Number	Number	Road Name	Road Issue	
1	3/30/2011	A. E. Nowell	710-3902	SE-56	Mauldin Mill Rd	Bridge at 425 Nowell Dr-culvert too small	County
2	3/30/2011	Donald Ackerson	985-0707	SE-452	East Waterford Dr	Would like roads repaved in Waterford Subd	County
						Potholes, cracking, drainage issues; unsafe for school bus to continue	
3	3/31/2011	Silissa Bischof	864-356-4599	SE-135	Iroquois Dr	picking up children if road issues not addressed in near future	County
			-			There are several potholes, and the end of the street cul de sac is a	
						mess. The drainage is terrible and each heavy rain floods the end of	:
ļ						the street which is near a creek. Also, the pavement at the end of the	
						street is broken up, cracked and covered in mud and gravel. There is	
	:					a school bus that turns around here each day which further destroys	
						the road. Also, the ditches on either side of the street at the end	
						need cleaned out for better drainage to the creek which would	
						prevent future erosion. Please look at repairing this street as there	
						are several children who play on this street and a car could hit a hole	
						and be slung out of the road and possibly injuring a child. I also feel	
						there should be speed limit signs posted and a children at play sign	
						installed. There is neither here at the present. Also a Dead End street	
4	3/31/2011	James White	324-6070	CE-3	Rolling Dr	sign would cut down on undue traffic. Thanks for your time.	County
_[_				Bridge has started to fall into creek, drops approx. 2" per 3 days, now	i i

		Kristopher			502190. 010022583 C. A000WED 1	I am at 322 Cherokee Ridge Rd; constant wash out of gravel road.	
	11/4/2011	Maynard	404-578-3019	CH-74	Cherokee Ridge Rd	V 61 100-500 161 5000	County
	11/4/2011	Roger Chastain	277-3196	CH-74	Cherokee Ridge Rd	Needs to be paved to ensure continuing development of Oconee's vast recreational possibilities. Lake Cherokee has approx. 150 homes (all well built) on it's lake. My taxes on my house are \$4891. Plus boat and motor taxes, etc. Have been on this lake for 28 years.	County
T.	11/4/2011	Weight Alcorn	404-558-8605	CH-74		I would like to encourage the County to pave the currently unpaved county road known as Cherokee Ridge Rd. It is a relatively short section of road but a number of people live on this road. Last year during the snow and ice storm, we were trapped in our house for a week because the road had iced and there was too much shade for it to melt. The paved road (Cherokee Lake Rd was cleared by the county within a day but our unpaved road remained impassible. Lord only knows what would have happened had there been a medical emergency. Thank you for your consideration.	
1	11/4/2011	Cathy Edwards Ovington	238-0075	CH-74		Not paved. Muddy when wet. Delivery truck not able to get to house when road was wet-and got stuck in mud trying. Lots of silt runoff that goes through neighbors property and into lake.	-
2	11/8/2011	Patrick Fant	250-0823	CH-74	Allers and the control of the contro	The road is washing out all the gravel. We really need pavement. Thanks so much for your consideration.	County
4	11/15/2011	Michael Whitmise	723:2091	CH-74	Cherokee Ridge Rd	There is a constant need for scraping and adding gravel to Cherokee Ridge Rd. Road is too narrow for cars driving in both directions—one has to pull over and wait for the other to pass by. We signed over property access several years ago to the county for paving and for maintaining. We do appreciate the gravel and scraping, but feel that paving would be a much safer road to travel on.	County
						Yes, I live at 12000 Lake Ridge Ln in Saxony Forest off of Hwy 188. The south end of Lake Ridge needs to be resurfaced and the dip in the road where the drain tube goes into the lake is breaking down on the sides. If this area by the tube completely goes we will loose the road and access to my home. Please evaluate this road and add to	
5	11/17/2011	John Ishfer	ionera@att.net	WA-163	Lake Ridge Ln	your repair list in 2012.	Count

_					On-Line Road Improv	vement Requests March 30, 2011 thru November 27, 2	2011
						The turn onto Little River Ln is very steep and narrow with a ditch on	
						one side. From Burgess Ln to Crowes Dr the road is impassable by 2	
						cars at the same time. There are blind curves and ditches on both	
						sides. Vehicles meeting head on must back up an unreasonable	
						distance to find a place to pull over. Very narrow section of road with	1
						dangerous blind curves. The road was blocked for hours, near the	
						Water Point, when a Roadway Truck got stuck and had to wait to be	
						towed out. I fear that a fully loaded fire truck travelling up the	
						narrow slope, in adverse conditions, to reach houses on this side of	
						Little River Ln could result in delayed response time because of the	
						condition of the road. I believe this road does not meet reasonable	
						road standards. Continuing to maintain a sub-standard road does not	:
						seem like a cost effective use of tax dollars. Furthermore, issues	
						involving life/safety should be resolved in the best interest of the	
46	11/20/2011	John Dilonno	944-9831	KE-38	Little River Ln	public and should never be "Grandfathered".	County
