Pertinent Ordinance or Regulation

Oconee County Code of Ordinances Section 26-9 (Attachment 5)

Recommendations

Moccasin Flower Road is not used by the general public. Property owners Hardy and Smith abut Moccasin Flower Road. Property owner Hardy has requested that the County consent to abandonment and closure of the road. Neighboring property owners, Mr. Vissage and Mr. Landers also have occasion to use the road. We should also note that the properties of Vissage and Landers do not abut the public portion of Moccasin Flower Road. In the course of our investigation, we have determined that Moccasin Flower Road is not in use by the general public. My recommendation is to honor the request of the Hardys' to remove Moccasin Flower Road from County Maintenance and that the Transportation Committee support this recommendation. If this recommendation is supported by the Transportation

Committee, the Transportation Committee should make a recommendation to County Council as to whether the request for abandonment and closure should be honored. If this recommendation is not supported by the Transportation Committee, no further action is needed.

Sec. 26-9. Road closure and abandonment.

(a)

Prior to any request for abandonment and closure of an Oconee County public road being brought before county council, county staff, including, without limitation, the Oconee County Roads and Bridges Department, will conduct a thorough investigation, adequate to determine: whether the road in question is, or ever has been, a county road; whether the road still is a county road; whether the road is still in general public use or has been practically abandoned; whether the county has any documentation relating to the status of the road, such as a dedication of right-of-way or easement, or a deed, or whether such road was subject to a prescriptive easement or easement by usage; whether there is any other information which would assist county council in determining whether the best interests of the Oconee County public will be served by consenting to the abandonment and closure of the road in question or by not so consenting. As a part of the investigatory process addressed herein, the Oconee County Roads and Bridges Department will post, adjacent to the road in question, a sign, marked so as to be as conspicuous as possible, prominently providing notice that the road, or portion thereof abutting the sign, is proposed for abandonment and closure, soliciting citizen comments concerning such proposed abandonment and closure, and providing notice of address and telephone number at the Oconee County Public Works Department to which concerned citizens may forward comments concerning such proposed abandonment and closure.

(b)

Following the investigation referred to in paragraph 1, supra, county staff will make a recommendation to the Transportation Committee of Oconee County Council, which, in turn, will make a recommendation to Oconee County Council as to whether the request for abandonment and closure should be honored or not, and provide the results of the staff investigation to county council for its use and final determination whether the county will consent to such abandonment and closure. Included with the recommendation will be any public comments received and the recommendation(s) of county staff and the transportation committee.

(c)

County council shall then, in public meeting, make a determination as to whether the request for abandonment and closure should be consented to by the County, acting

by and through county council, and shall signify its decision by motion, if such decision be negative, and shall signify its decision by resolution of county council, if such decision be positive.

(d)

If county council consents to the abandonment and closure of a county public road, as addressed herein, the resolution of county council consenting to such abandonment and closure shall state, with particularity, the road, or section thereof, to be closed; the basis for county council's decision to consent to the abandonment and closure of the road; and the absolute requirement that, prior to the road, or portion thereof, in question being closed, the primary private party(ies) in interest (unless the county, itself, is the party requesting the road closure, in which case the county will be the primary party in interest to comply with this section) shall fully comply with all applicable law, including, without limitation, S.C. Code 1976, § 57-9-10, as amended, and shall provide all required notice and service of process. Only upon the meeting of such conditions and the fulfillment of such procedures will the county council consent to such abandonment and closure be considered final, and that shall be stated in such resolution.
