Everyone speaking before the Committee will be required to do so in a civil manner. The Committee will not tolerate personal attacks on individual council members, county staff or any person or group. Racial slurs will not be permitted. The Committee's number one priority is to conduct business for the citizens of this county. All citizens who wish to address the Committee and all Boards and Commission appointed by Council should do so in an appropriate manner.

Transportation Committee Meeting

October 1, 2019

Agenda

- Discussion regarding the abandonment of a portion of Linhart Rd (WA-156)
- Discussion regarding revisions to Chapter 26 of the Oconee County Code of Ordinances
(Public comment may be allowed by the chairman at his discretion for this item)
- Discussion regarding acceptance of the roads in Willow Creek Subdivision – Phase I

Abandonment of a portion of Linhart RD (WA -156)

Linhart Rd (WA-156)

- Council approved resolution (R2017-09) consenting to the abandonment of a portion of Linhart Rd (WA-156)
- The issue of cul de sac placement came up because the road is not centered in the right-of-way after several meetings with the property owners it was determined to move the termination point of the roadway to accommodate the current layout of the roadway.

Linhart Rd (WA-156) Staff Report

- Linhart Rd is currently and has been a county road still in use by the general public.
- Signs posting notice of the abandonment were placed at the new point of termination for the roadway on July 10, 2018 with no comments received by the Roads and Bridges Department.

Discussion regarding revisions to Chapter 26 of the Oconee County Code of Ordinances

- Staff has met with Administration and other departments to clean up and include items specifically for subdivision roads.
- Discussion

Discussion regarding acceptance of Willow Creek Subdivision roads (History of road acceptance)

- For Phase II County Council approved variance to accept roads “as built” on February 5, 2008.
- Right-of-ways were not offered to the county, so Phase II roads were never officially added to county road system.
- At the October 10, 2014 Trans. Comm. meeting issues with the acceptance of Willow Creek Phase I and Phase II were discussed.
- Wesley White with JW White Consulting provided an as-built for Phase I on February 13, 2015 highlighting variances from the Code of Ordinances.
- Transportation Committee was updated on the progress of the Phase I as-built on July 14, 2015 and October 13, 2015.
- The issue was brought back to the Transportation Committee on October 10, 2017. Staff was directed to gather all needed information and refer to full council with an executive session to first discuss the legal issues related to variances.

Willow Creek Subdivision Roads

- The following is a summary of items that did not meet the minimum standards (for Phase 1 Roads), as observed by JW White Consulting, LLC.
 - Shoulders were not a 4' minimum.
 - Road intersection angle was less than 75 degrees.
 - Intersecting roads did not have a minimum separation of 400'.
 - Intersection roads were not designed to include a leveling area at the intersections.
 - Inlet and outlet culvert pipe were not protected from scour and erosion (i.e. no rip rap).
 - Not all right-of-way areas were stabilized (i.e. grass or other vegetation).
 - Cul-de-sacs are undersized.
 - No testing was done to determine the thickness and compaction of the stone base and asphalt surface.
 - The culvert pipe construction/installation was not verified. The culvert pipe sizing was not verified.
 - The maximum centerline road slope exceeds 12%.
 - Some culvert pipes appear to be installed incorrectly.
 - The roadway is not centered within the platted right-of-way (several locations).
 - Site distance is inadequate for one of the intersection roads.

Willow Creek Subdivision Roads

- Roads and Bridges staff met with representatives of Willow Creek Subdivision in March 2019 to obtain any additional information and discuss items that did not meet the minimum standards and ways those items could be improved
- A motion could be made to *Move to direct staff, including Roads and Bridges Director, County Attorney, Engineer, and Fire Chief to work with Willow Creek Subdivision principals in order to outline solutions to engineering and construction issues which are impediments to County accepting Willow Creek Phase 1 roads into the County Road System, and to present the results to County Council along with the question of accepting those roads into the County Road System.*
