

America's fastest-growing vision benefits company

It's pretty simple, really. Your vision is important – and we make caring for it easier. We promise this because we believe in ourselves. But, more importantly, because we owe it to our members. In return, they've made us the fastest-growing vision benefits company for 4 years running.

A little more about us

- For 25 years, we've provided vision benefits to organizations large and small.
- Our membership surged from 6 million to 36 million in just more than a decade.
- Our expansive independent provider network pairs with many of America's favorite retail brands, including LensCrafters, Sears Optical, Target Optical, JCP Optical locations and most Pearle Vision locations.
- We proudly sponsor OneSight, a charitable organization dedicated to improving vision, by providing free vision exams and eyewear to those in need worldwide.

What that means for you

- We're America's biggest vision network with the quality and savings you expect, plus the choice you deserve.
- Our vision plans are so spot-on and our network is so vast and diverse that more people enroll, use their benefits and stay in network than with any other plan.²

Still not sure what EyeMed is all about? Give us a call or visit our website at eyemed.com. We'd love to hear from you.

¹ EyeMed satisfaction survey via third-party and member reporting, 2013

² Enrollment and utilization data based on new client data and RFP information from 2009-2013
