**Oconee County ATAX Grant  
Application Form**

**For Tourism Related Projects**

**I. Applicant**

- A.** Name of Organization: Devils Fork State Park
- B.** Address: 161 Holcombe Circle, Salem, SC 29676

**II. FUNDS REQUESTED**

- A.** ATAX funds requested \$7775.19
- B.** Funding will be used to purchase treated timbers and stone screening for the restoration of the tent impact pads in a section of RV sites.
- C.** One hundred percent of the requested amount (\$7775.19) will directly attribute to attracting guest and serving tourist.
- D.** Some Additional funds will be provided by our agency if needed.

**III. NARRATIVE PROJECT DESCRIPTION**

**A. Project Title:** RV Site Tent Impact Pad Restoration

**B. Description of Project**

Devils Fork State Park receives heavy use on spring and fall weekends and throughout the duration of the summer season with a number of our guests camping in tents. Over the years some of the impact pad timbers have started to shift and deteriorate on some of the standard RV sites. We can make our campsites more desirable and lessen the impact of soil compaction and erosion by replacing older timbers and improving tent pads.

RECEIVED  
8.13.21

### **C. Project Benefits**

This project directly benefits guests visiting Devils Fork and Oconee County. Devils Fork is a popular tourist destination for numerous guests entering the Golden Corner. Many of these visitors stay at the park as they enjoy the abundant sites and opportunities within Oconee County. This proposed project will improve the overnight camping at Devils Fork by protecting the campground from the impact of tents being placed in non-designated areas, and provide campers with a more desirable place to pitch their tents.

Not only will this project benefit guests, but will also improve the overall infrastructure of the park and increase the sustainability of the park's resources. Local Oconee County businesses will benefit as well as a greater number of park guests will insure continued tourist spending.

### **IV. Dates of project**

Depending on the approval of the requested funds and when they are released, the project will begin after November 1, 2021 and completed by June 1, 2022.

### **V. Application category**

X Government Entity: Devils Fork State Park (South Carolina State Park Service).

### **VI. Demographic Data**

The proposed project will serve to strengthen Devils Fork's influence on tourism in Oconee County by rehabilitating parts of a heavily used park, thus making the park an even more desirable destination. Prior to opening in 1991, no substantial overnight accommodations providing lake access were available to people visiting Lake Jocassee. The park operates 20 mountain villas, 25 boat access only primitive campsites, 59 paved sites with water and electric hook-ups, and 25 rustic tent sites. The park also operates a Ranger Station/Park Store that provides area information and brochures. Since opening in 1991, Devils Fork State Park has steadily become a popular destination for visitors to the Golden Corner. The park staff routinely refers individuals to local restaurants, bed and breakfast, private cabin rental and county campgrounds when Devils Fork is full. The park has seen its attendance increase by providing quality facilities from which visitors can enjoy picturesque Lake Jocassee. The proposed project will improve the quality of the campground at Devils Fork, thus maintaining the standards repeat guests and new guest have come to expect.

A. In 2020, there were 234,402 visitors to Devils Fork State Park. It's anticipated that the attendance numbers will be similar in 2021.

- B.** A total of 9,104 overnight reservations were made in 2020 with a total of 7,687 of those reservations being made by guests from over 50 miles of Devils Fork/Oconee County. The number of overnight reservations made by guests beyond a 50 mile radius is predicted to be around the same this year. By the first week in August of 2021 there were 6,336 overnight reservations made at Devils Fork State Park with 5,837 of those reservations being made by tourists.
- C.** Previously there were 9,104 overnight reservations made at Devils Fork State Park with 23,993 nights reserved. The number of overnight reservations is predicted to be around the same this year. By the first week in August of 2021 there were 6,336 overnight reservations made with 17,635 nights reserved.
- D.** SouthCarolinaParks.com is the website for the South Carolina State Park Service and South Carolina as a whole. Not only is it a website for reserving campsites and cabins, it serves as a tourism guide as well. This website is connecting people all over the World Wide Web and throughout the United States with South Carolina. There are also printed material, brochures, television commercials and other advertisements currently circulating.
- E.** With the popularity of social media, the South Carolina State Park Service has increased its presence on such sites as Facebook, Twitter, YouTube, Instagram, and Pinterest. There are currently over 159,939 people following SC State Parks on Facebook, over 71,000 on Instagram, and over 17,200 followers on Twitter. Devils Fork recently started its own Twitter account and has over 280 followers. Many park guest post pictures and comments to these social media sites.
- F.** Demographic data will be obtained from the Itinio reservation system.

## **VII. Audit**

FARMSTEAD

13 August 2021

Oconee County ATAX Committee  
1099 South Cove Road  
Seneca, SC 29672

Dear ATAX Committee,

The Foothills Farmstead has been busy rebuilding the Main Farmhouse along with several other projects. Many of our projects have been partially funded by Oconee ATAX funds and we appreciate your support. For this round of grants, we are applying to put new wiring for electricity in the Main Farmhouse.

When disassembling the house over the past few years, we have been working with a local electrician in making sure that we mimic what was there originally while at the same time bringing it up to building code standards. This electrician visited the house in its original location before the old wiring was removed during the disassembling process. Thus, we are only including one quote on this job because we have been working with him already. We are confident that he is giving a fair quote which is why we went with him in the first place.

Our grants, to date, cover everything with the house rebuild except electricity, building 3 chimneys and painting the house when complete. Therefore, we are asking you to consider this request for the wiring of electricity in the house. It is a time-sensitive matter in that we are scheduled to complete the house rebuild by December 31<sup>st</sup>. The new wiring must be placed after the roof and siding are installed but before any walls or ceilings go back in. We are close to that stage at the time of writing this grant application.

Again, we appreciate your support in the past and in considering this grant request. If you have questions or require further information, please let us know.

Sincerely,

Nicholas Gambrell  
Director

# OCONEE COUNTY ATAX GRANT APPLICATION FORM FOR TOURISM RELATED PROJECTS

## I. APPLICANT

A. Name of Organization The Foothills Farmstead

B. Address (mailing address) 158 Grant Road  
Westminster, SC 29693

## II. FUNDS REQUESTED

A. ATAX Funds Requested \$ 2,800

B. How will ATAX Funds be used?

*ATAX funds would be used toward wiring electricity in the main farmhouse of the Foothills Farmstead. Originally, there was no electricity in the house but was added during the time that the farmstead interprets (1900 – 1950). Now that the house has been disassembled and is currently being rebuilt, new wiring will need to be installed according to buildings codes. Thus, we have been working with a local electrician since the project started to ensure that new wiring can still be as historically accurate as possible.*

C. Estimated percentage of costs directly attributed to attracting or serving tourists? \_\_\_\_\_

D. Funds furnished by your organization \$108,500

Matching Grant <u>\$102,500</u>	Source <u>(USDA, SCPRT, and Oconee County)</u>
Matching Grant <u>\$6,000</u>	Source <u>from two previous ATAX grants (labor and foundation)</u>
Other Funding _____	Source _____
Other Funding _____	Source _____

Provide an itemized total budget for your event **and** an itemized budget only reflecting how ATAX funds will be spent. **THIS IS REQUIRED, attach on a separate sheet**

## III. NARRATIVE PROJECT DESCRIPTION

A. Project Title Electricity in Farmhouse

B. Description of project:  
*The Foothills Farmstead is a living history farm located in Oakway, SC. It illustrates the lives of farming in the Foothills of the Southern Appalachian Mountains of Georgia, South Carolina and North Carolina.*

*The purpose of this grant specifically is to help with the cost of rewiring the main farmhouse of the Foothills Farmstead. The main house was disassembled and is currently being reassembled at the farmstead. It is scheduled to be complete by December 31, 2021. Soon, the new wiring will need to be installed. When finished, the main farmhouse is to serve as the focal point of approximately 15 buildings total at the farmstead. This includes being a visitor's center for tourists to this area.*

*One interesting side note on the wiring is that before electricity, this house boasted gas lighting. The generator house is still on the house site. Someone from Tennessee has donated a carbide generator to the farmstead to show how this system worked. Thus, electricity in the house will actually be part of the interpretation of the site as well as a functional part.*

*One final note is that electricity being installed will allow for a fire and security system to be installed. A system such as SimpliSafe is wireless but the main base requires electricity. It is monitored 24/7 for security and fire. A system such as this is vital to making sure this house remains safe.*

C. Who will benefit from this project?

*The great thing about heritage tourism is that it entails both preservation and publication. Those who benefit from this will be residents of the region wanting to preserve their heritage. However, the largest benefit will be to the growing number of attractions in Oconee County for tourists. Benefits will thus be seen across the board in areas such as overnight stays, local restaurant visits and areas of commerce like small businesses (local shopping). This will be achieved the greatest through large events at the farmstead including out-of-town bus tours, weddings, festivals, and other events such as tractor/engine shows, etc.*

**IV. DATES OF PROJECT**

Beginning September 2021

Ending December 2021

**V. APPLICANT CATEGORY**

Date of Determination Letter April 5, 2017

**VI. DEMOGRAPHIC DATA**

How will the project influence tourism in Oconee County?

*Tourism will be influenced in Oconee County not only by bringing in visitors to the farmstead, but by subsequently sending them forth to other attractions and accommodations throughout the county.*

N/A

B. How many of the visitors/participants were from beyond a 50 mile radius of Oconee County last year and are anticipated this year?

C. How many overnight stays were created by this event last year and are anticipated this year?

Last year : N/A

This Year: N/A

D. How do you plan to advertise this event beyond a 50 mile radius of Oconee County?

*The Foothills Farmstead will begin marketing throughout the region in newspapers, internet, mailings, networking, etc. This will begin in the larger cities surrounding the farmstead including (Georgia) Athens, Atlanta, Augusta, (South Carolina) Greenville, Columbia, Charleston and (North Carolina) Charlotte, Greensboro and Asheville. The farmstead is already listed in the 2021 SC Agritourism Passport.*

E. What other documentation can you provide demonstrating this event promotes

Tourism in Oconee County? (i.e. photographs, letters from local chambers of commerce, restaurants, shop or accommodations owners) See answer to next question...

- F. What records will be kept during this event to obtain the above demographic data? (i.e. guest logs, phone logs, accommodations contracts, website hits, advertising demographics)

*The Foothills Farmstead officially opened to the public on July 11<sup>th</sup>, 2020 for 2 hours each week. In order to keep record for demographic data, the Foothills Farmstead is maintaining a guest log on site that records number of visitors, their respective zip codes and how they found out about the Foothills Farmstead. The Foothills Farmstead Website also records demographic data statistics. Also, a record will be compiled of all advertising demographics and compared to visitation to get an idea of what advertising methods are effective.*

---

To the Oconee County ATAX Committee;

Mainstreet Walhalla has a great event planned for our city this Christmas season. From past experience, I would expect that we will have a large crowd of visitors coming to see all that Libby and her volunteers have planned during the Christmas season. For example, this year on Mothers Day weekend the one day festival that Mainstreet put together brought an estimated crowd of over 5,000 visitors to our city!

The Independence Eve event that this same group organized this year brought the largest crowd downtown we have had in years. All the shops and restaurants had more people than they could wait on. It was fantastic.

We appreciate your consideration, I'm excited about the planning and hard work they have put into this. Undoubtedly this will be successful as well.

Thanks,

Danny Edwards, Mayor  
Walhalla, SC

### **Single source budget explanations:**

The Distrx app will be used exclusively to create the app-based walking tour because the Distrx app is already partnered and designed for use by towns participating in the Main Street America program. This partnership provides functionality, cost savings, and integration that cannot be matched.

Imbody Creative Design will be used exclusively to create the tour branding/design to ensure brand and design consistency with existing Main Street Walhalla program brands.

## **How will the project influence tourism in Oconee County?**

The goal of the app-based Historic Walhalla Walking Tour project is to create a permanent historic walking tour that is available 24/7 to all Walhalla visitors. This tour will be an extra attraction for the City to offer visitors as it works to revitalize its historic downtown and attract visitors with shopping, dining, entertainment, and culture.

Oconee History Museum has offered staff-guided walking tours of downtown Walhalla many times over the years and these special events have always been filled to capacity. The museum regularly receives feedback from visitors requesting more frequent walking tours, or at the very least they want more information about historic buildings, businesses, and points of interest in town. Many visitors express a desire for self-guided tour and City exploration options that provide more freedom and flexibility to their visits. This demand has further grown since the City of Walhalla became an official participant in the Main Street America program, and the Main Street Walhalla program began attracting more visitors to Walhalla by holding more frequent special events and efforts to drive community vibrancy, engagement, tourism, and economic development.

A perk provided to all communities participating in the Main Street America program is access to the Distrx app. This app mainly functions as an interactive map of the core Main Street district featuring free business listings, parking information, special event information, attractions, etc.... Self-guided specialty tours and other "apptivities", such as historic tours, art walks, and scavenger hunts, can be created as additional Distrx app features. This allows for countless options to create curated visitor experiences that grow and change with the downtown area and the ongoing goals of the Main Street Walhalla program.

Oconee History Museum has the historical knowledge and interpretive skills necessary to craft a historic walking tour. However, we lack the manpower necessary to offer guided walking tours with the frequency that visitors want. The opportunity to collaborate with Main Street Walhalla and take advantage of the Distrx app's capabilities to offer a quality self-guided and engaging walking tour is one that we could not pass up.

ATAX funds will allow Oconee History Museum to collaborate with Main Street Walhalla to create, maintain, and market a self-guided historic walking tour of 25 stops in downtown Walhalla using the Distrx app for a period of 2 years. This is sufficient time to build, market, and pilot the project.

### **A. How many visitors/participants attended the event last year and are anticipated this year?**

This is a 1st time project. Oconee History Museum welcomes 2500-3000 visitors annually. Main Street Walhalla's special events held on Main Street have an average attendance of 5000. Main Street Walhalla's special events held on Short Street have an average attendance of 2000-3000 visitors. Distrx reports that 500-700 app downloads occur within a new user's first 30-60 days, and 800+ users are already using the app in the broader geographical region.

**B. How many of the visitors/participants were from beyond a 50-mile radius of Oconee County last year and are anticipated this year?**

This is a 1st time project. On average, 43% of visitors to Oconee History Museum are from beyond a 50 mile radius. Main Street Walhalla has not tracked tourism levels at special events.

**C. How many overnight stays were created by this event last year and are anticipated this year?**

This is a 1st time project. Oconee History Museum does not track overnight stays.

**D. How do you plan to advertise this event beyond a 50-mile radius of Oconee County?**

This project will be incorporated into existing Oconee History Museum, Museums Off Main, and Main Street Walhalla advertising plans. Rack cards will be distributed to visitors centers and tourism partners.

**E. Other documentation demonstrating that this event promotes tourism in Oconee County?**

Much of the marketing conducted by Main Street Walhalla, Visit Oconee, and downtown Walhalla merchants/attractions emphasizes downtown Walhalla's history and culture. New business owners in Walhalla consistently approach Oconee History Museum for historical information and resources specific to the buildings they plan to occupy for use in their individual marketing/branding. This tour product will be readily available to any merchant, attraction, or marketing partner seeking to attract tourists to Walhalla.

**F. What records will be kept during this event to obtain the above demographic data?**

Detailed app user data will be immediately available after project launch. We will also be able to track webpage hits for any pages that hosts information about the tour

# Walking Tours

## Create an Engaging Digital Walking Tour

An important part of telling your Main Street story is inviting visitors to experience the history of your community through a Historic Walking Tour, sharing important historic events at each stop along the way. Some communities also offer tours of murals, sculptures or other points of interest, and visitors eager to participate look for maps and directions at Visitor Centers and Main Street offices across the country. These tours are an essential tool in communicating all that our communities have to offer and serve to draw additional visitors to our Main Streets, fulfilling our mission and benefitting our local businesses.

We know that brochures and maps are expensive to create and maintain, but more importantly today's vast mobile audience looks for information in the palm of their hands. The same smartphone and app that promotes your events and attractions, lists your Main Street merchants and provides an easy-to-navigate map of your district can also facilitate any walking tour you currently offer or choose to create. With *distrx*, our "bring your own device" (BYOD) approach means that your visitors will enjoy a rich and engaging experience, with pictures, text descriptions and audio narration appearing on their mobile devices. Using cutting-edge *beacon* technology, your visitors see their current location relative to each tour stop, with the story associated with each location presented *automatically* as participants approach. A completion screen offers a thank you to participants and an opportunity for feedback, which is routed direct to your mailbox.

Experience has shown that while scrollable pictures and descriptions can provide valuable information for each tour stop, it is the *narration* that makes the tour really engaging and immersive. ([Main Street America article](#))

Best of all, creating and maintaining a Walking Tour is as easy as placing tour stop location pins on a map, then adding descriptions, pictures and audio clips. With that information uploaded, distrx then provides the technology to bring your tour's story to life.

Wondering how to get started? If your Main Street is not already a participating distrx community, [contact us](#) today, and you will be up and running in no time! There is no cost to your Main Street to participate, and creating a Walking Tour involves only a modest fee per stop. Current pricing is shown below.

Tour Pricing is as follows:

One-time fee per stop \$200  
Includes 10 year battery life beacon and programming

Annual maintenance and hosting (per stop) \$20  
App and web hosting, beacon maintenance/replacement (except for theft).

For example, cost of a 5 stop tour would be: 5 X \$200 = \$1,000 setup  
Annual app and web hosting: 5 X 20 = \$ 100 annual
